SUMMARY

AI Product Owner with end-to-end ownership experience delivering LLM, RAG, and agentic solutions from concept to scaled adoption. I translate business needs into prioritized backlogs, drive evaluation-led development with clear guardrails, and align pricing and delivery models to measurable value and unit economics.

PROFESSIONAL EXPERIENCE

AI Product Manager Feb 2025 - Present

Majorly: AI-Powered Career Coaching Platform San Francisco, CA

- Launched “Ana”, an AI-powered career advisor agent, owning backlog and delivery roadmap. Defined success metrics and guardrails, reducing advisor workload by **10 hrs/week** and lifting adoption from **24% to 52% across paying orgs**.
- Delivered a real-time, speech-to-speech AI interview simulator, managing backlog prioritization and collaborating with engineering to address latency and interactivity challenges. Drove **+20% WAU within 6 weeks** and enabled conversion of 3 pilot customers to paid engagements.
- Owned the launch of a self-serve GenAI analytics feature that transforms natural language queries into real-time data insights for advisors, cutting report turnaround time from **1-2 days to minutes**.

AI Product Manager Sep 2024 - Feb 2025

AD GenAI Consulting: Founded & scaled to 3 cross-industry clients (VC/FinTech/EdTech). San Francisco, CA

- [SowFin](#) (CFO Copilot): Owned delivery of an on-prem GenAI data assistant using a fine-tuned SLM. Balanced privacy, cost, and model tradeoffs to secure **6 paid pilots** (40% of interviewed clients).
- [SprintFit](#) (VC analysis tool): Led backlog and evaluation of an agentic pitch-deck reviewer (RAG + agents). Reduced VC screening time by **70%** and onboarded **3 partner firms**.

Product Manager Sep 2021 - Sep 2023

Mastercard Chennai, India

- Scaled Issuer onboarding on Mastercard’s new configuration setup platform **by 5x (10 to 50+ orgs per week)**, by instrumenting product analytics to surface drop-offs and removing bottlenecks in the customer journey.
- Aligned 15+ global stakeholders on a unified roadmap for low-friction partner onboarding and profile configuration, then led a 9-person cross-functional team to deliver iterative releases using Agile practices, achieving a **85% CSAT**.

Data Scientist, Golden Gate University Dec 2023 - Sep 2024

Business Analyst, HSBC Nov 2019 - Sep 2021

Software Engineer, Lloyds Banking Group Nov 2017 - Nov 2019

EDUCATION & CREDENTIALS
