SUMMARY

Hands-on AI PM with a 0-1-N track record turning LLMs, RAG, and agentic systems into adoption-ready products. I drive eval-first roadmaps, guardrails, and craft pricing that aligns value with unit economics.

SKILLS

GenAI (LLMs, RAG, Agentic AI, Vector Search) | AI Product Strategy | MLOps | Effective Prompt Engineering | Python | SQL | Product Analytics | Model Performance Evaluations (Galileo, Arize, Helicone) | Cloud (AWS, Azure) | Prototyping | A/B Testing | Model Context Protocols (MCPs) | Responsible AI | Cross-functional Leadership | Go-to-Market Strategy

PROFESSIONAL EXPERIENCE

AI Product Manager **February 2025 - Present**
Majorly: AI-Powered Career Coaching Platform San Francisco, CA

- **Identified a market gap** in interview practice products: Competitors’ chained STT-TTS features couldn’t simulate live interviews; Prototyped and launched a real-time speech-to-speech simulation (with low-latency turn-taking, follow-ups) using Microsoft Voice Live, increasing **Weekly Active Users by 20%**, helping **convert 3 pilots to paid**.
- Led the AI roadmap for career-planning recommendations and interview-readiness tools, helping secure **5 university partnerships** in the first 5 months.

AI Product Manager (Fractional) **September 2024 - February 2025**
Founded a GenAI Product Consultancy and worked with 3 clients in the **VC, CFO Office/FP&A and EdTech industries**.
[SprintFit](#) (VC analysis tool) San Francisco, CA

- **Cut VC screening time by 70%** with an automated pitch deck evaluation (RAG + agentic pipeline) that extracted key investment signals (market, team, traction) and standardized scoring criteria, **securing 2 VC firms as design partners**.
- [SowFin](#) (CFO/FP&A Copilot) San Francisco, CA
- Ran **JTBD-style user interviews** with 13 CFOs and **uncovered two priorities**: avoid sending internal financial data to external LLM providers and enable self-serve data analysis and visualization.
- Drove concept to launch of a natural-language-to-SQL and charting feature (fine-tuned Llama 3.2 3B SLM) based on interview insights, achieving 92% contextual accuracy in pilots and **converting 40% of interviewed CFOs into pilots**.

Product Manager **September 2021 - September 2023**
Mastercard Chennai, India

- Accelerated the onboarding of Issuer partners and Affiliates to Mastercard's new cloud-native, multi-API parameter configuration platform, increasing the **weekly User Onboarding rate by 5x** on the new upgraded platform, from **10 orgs/week** to over **50 orgs/week** by effectively integrating Product Analytics to identify and remove bottlenecks.
- Elicited requirements from 15+ international stakeholders to create a unified product vision, then led a 9-member tech team (consisting of Development, Quality Assurance, UI/UX, Program Management teams) towards Agile implementation of this vision, achieving an **85% Customer Satisfaction (CSAT)** score.

EDUCATION & CREDENTIALS

Master of Science (M.S.) in Business Analytics **September 2023 – September 2024**
Golden Gate University San Francisco, CA

- My team’s [submission](#) got a \$3600 LOI from Block Inc in the “[World’s Biggest MCP Hackathon](#)” hosted by **Y-Combinator**, for an MCP powered tool for content creators that integrates with calendars & social media for intelligent content creation.
- Completed a 4-week [AI/ML Product Management](#) specialization program.
- [Portfolio site](#) includes PRDs, Product case studies, and several side-projects.
