

Akshay Danthi

San Francisco, CA | (628) 468-2958 | [Portfolio](#) | akshaydanthi19@gmail.com | [LinkedIn](#)

SUMMARY

Customer-obsessed Forward Deployed Engineer with experience building full-stack GenAI and API-driven products from 0→1. Proven track record in designing and deploying Python-based agentic workflows, retrieval-augmented generation (RAG) pipelines, and cloud-native solutions that solve real-world business problems. **Postman API Fundamentals Certified.**

SKILLS

Languages & Frameworks: Python (FastAPI, LangChain), Node.js, SQL, JavaScript, React, [Next.js](#);
AI/ML: LLMs, RAG, Agentic AI (+LangGraph, +CrewAI), Prompt Engineering, Rapid Prototyping (n8n, v0.dev);
API & Backend: REST APIs, Microservices, Postman, Azure Functions, Airflow, SQL;
Infra & Cloud: AWS, Azure, GCP (basic), Docker, CI/CD;
Observability: Arize, Galileo, Helicone;

PROFESSIONAL EXPERIENCE (Ordered by Relevance)

Product Engineer+AIPM

February 2025 - Present

Majorly: AI-Powered Career Coaching Platform

Remote

- Built scalable backend GenAI features including real-time interview coach, resume analyzer, and LinkedIn optimizer by integrating Python APIs with LLMs and prompt engineering pipelines, achieving a **92% recommendation relevance** score (validated via user feedback ratings) and driving a 40% increase in active user engagement within the 1st month.
- Developed and deployed RAG pipelines and agentic AI workflows using Python (Azure Functions, FastAPI, LangGraph, LangChain, FAISS), achieving >90% retrieval accuracy with Avg. response times under 1.2 seconds.
- Engineered prompt optimization frameworks (+PromptLayer) to improve response relevance and reduce latency. Used Galileo, Arize, Helicone for tracking GenAI model performance.

Fractional Product Engineer+AIPM

September 2024 - February 2025

Clients: [SowFin](#) (AI CFO Copilot), [SprintFit](#) (VC Copilot), [Majorly](#) (EdTech)

Remote

- At SprintFit, developed a RAG and agentic pipeline that parsed pitch decks, extracted structured signals, and scored them on market, team, traction, and product defensibility, **reducing VC evaluation time by 70 percent.**
- At SowFin, engineered a Python-based natural language query-to-visualization pipeline by fine-tuning LLaMA-3.2:3B models (**92% contextual accuracy**) enabling CFOs to self-serve data insights securely.
- At Majorly, built RAG & vector search models to recommend courses, minors, & skills aligned with student career goals

Data Analyst

December 2023 - September 2024

Golden Gate University

Remote

- Implemented predictive models using Python’s scikit-learn, significantly improving strategic planning by forecasting trends and outcomes with high accuracy, enhancing overall performance.
- Automated insights delivery using Python + Tableau + SQL, improving strategic decisions across departments.

EDUCATION & CREDENTIALS

Master of Science (M.S.) in Business Analytics

September 2023 – September 2024

Golden Gate University

San Francisco, CA

- Postman API Fundamentals Student Expert ([Certification](#))
- My team’s [submission](#) got a \$3600 LOI from Block Inc in the “[World’s Biggest MCP Hackathon](#)” hosted by **Y-Combinator**, for an MCP powered tool for content creators that integrates with calendars & social media for intelligent content creation.
- [Portfolio site](#) includes several side-projects on RAG, Agentic AI, ML models for Prediction & Classification, Case Studies, etc
